Overview: DashFlow is a modern money manager for iPhone & iPad, with a Mac app in the works.

Summary: Stay on top of all your accounts, budgets, bills and goals with one flexible app. Track everything manually or with automatic bank sync, all of which is stored and synced through your private iCloud account.

Features:

- Finance Goals: Flexible Dashboard with all your goals
- Organized: Accounts, Budgets & Bills in one place
- Totally Private: Your data is only stored in iCloud
- Family Sharing: Sync data between your family's devices (CKShare)
- No Ads: It's free, but we don't advertise or sell data (Freemium)
- Automatic Bank Sync: Securely sync with plaid.com (USA)
- Multi-Currency: Each account can be displayed in any currency

- Advanced: Notes, split transactions, dynamic Other category for budgets so you don't have to track everything, sort everything however you want, bill reminders, balance entry, and lots more.
